

## PROMINENT FARMER ATTEMPTS SUICIDE

Bradley McAdoo Hacks Ghastly Wound in Throat With Razor.

## REPENTS AND CALLS DOCTOR

Blade Is Stopped by Jawbone. Tobacco Company to Buy Locally.

(Special to The Times-Dispatch.) GREENSBORO, N. C., August 27.—

Bradley McAdoo, a prominent farmer living near the city, in a fit of aberration this morning attempted suicide at his home by cutting his throat with a razor. The shock of the pain brought his mind around, and a doctor was summoned immediately by the terrified servant at the bachelor home, to whom the bleeding victim imparted his condition and act. Upon arriving, the physician found that McAdoo had cut high enough above the throat to hit the lower jawbone, thus preventing a fatal gash. It required sixteen stitches to sew up the wound. Mr. McAdoo expressed the greatest relief when told that the wound would not be fatal. He declares that his act was one of "irresistible impulse." He is unmarried, aged forty-five, a sober and prosperous man.

It was only last week that Mr. F. Detmering, an aged German here, and a two-weeks' bridegroom at eighty-one, hanged himself to a tree in the Presbyterian churchyard, and when found was hacking his throat with a butcher-knife. The old gentleman was saved, and left last night to visit relatives in Tennessee.

## Buy Supplies From Local Firms.

An announcement, which means much to Greensboro, was made by Superintendent J. T. Wade, of the American Cigar Company branch factory here to-day. He has been notified from New York headquarters that in future all supplies which local merchants and manufacturers can furnish be purchased from them. Heretofore all these materials were furnished from the New York office through the Amsterdam Supply Company. These supplies consist of shaffing, belting, electrical furnishing, oils, paints, lumber, printed matter, such as labels, stationery, etc., coal, casings, belting, etc., and amount to nearly \$25,000 a year at this point alone. The New York office gives notice that this new departure will be put in practice at every one of their factories so far as possible, the largest one in the South being located at Richmond, Va.

Mr. Wade is naturally deeply gratified at this news, since he has been assiduous in pressing this point of patronizing local concerns wherever possible in this matter of supplies. It will no doubt go a long way in popularizing the company's goods in the local markets where they are manufactured. The factory here is doing a big business, making over 10,000 cigars of the better grades each day, and for the month of August, basing this week's shipments on those for the preceding weeks, the total output shipped from here will come near to the two million cigars mark.

## For Protection of Game.

Mr. Gilbert T. Pearson, secretary of the State Audubon Society and superintendent of the work in this State, has just received from the printer at Raleigh 10,000 copies of the game laws of North Carolina, in force April 1, 1907. The publication is a handsome one, and is intended for general distribution to any one applying to Mr. Pearson at Greensboro, inclosing a two-cent stamp. These laws have been carefully compiled for the State Audubon Society by Perrin Buebee, Esq., of the Raleigh bar. It is a conveniently arranged booklet of thirty-two pages, and will be very valuable to those securing a copy.

Professor Pearson has just returned from a three-weeks' trip to the West, where he attended the annual session of the National Association of Game Commissioners, or State superintendents. The work of the association is to protect the game, and the entire party took a trip through the Yellowstone Park region, and were delighted with sights of wild grizzlies, bison, buffaloes, etc., in their native haunts, where the chief object of the trip was to prevent the species from becoming extinct, and is spending much to propagate them in the great national park. He says that he finds that while much is being done in the West to preserve game, on account of the positions being political or partisan, the chief officer being often selected more because of political efficiency than his natural adaptability or love for the work, the cost is very great. He mentions one State where the game department costs the State \$50,000 per year, in which not as much work is being done as in North Carolina and South Carolina, where the positions are not political, the expense supplied largely by voluntary contributions of members, and the cost in each State not exceeding \$10,000.

The weight weighed about one thousand pounds and tore one side of his head almost off. The coroner was summoned, and he selected a jury from among the employees of the factory. ## FAMOUS KIDNAPPING CASE UP ON REVIEW

RALEIGH, N. C., August 27.—The Supreme Court, which convened yesterday for the fall term, took up the hearing of argument in appeals yesterday, the first district being up this week. Tate vs. Bowser, an appeal from a sentence for an affray, was the first and required only a few minutes. The second case was the famous kidnapping case of State vs. Joshua Harrison, from Pasquotank county, in which Harrison, who is an old man of prominence, is under sentence of twenty years for kidnapping the little son of Hon. R. F. Beasley, former State Senator, more than a year ago. Ex-Governor Jarvis, who is a brother-in-law of Harrison, is of counsel for the defense, and he is aided by former Governor C. B. Aycock and E. P. Aycock. Assistant Attorney-General Clinton Heyden made the argument for the State and in support of the trial and sentence below single-handed. There were thirty-four exceptions of one sort and another on which the appeal for a new trial was based. Other first district appeals for this week are: State vs. Walker & Myers, Swindell vs. Latham, Bowser vs. Wescott, Carlson vs. Lumber Co., Haddock vs. Dunn, Town of Washington vs. Lumber Co., Daniels vs. Homer, Type Founders Company vs. Publishing Company, Alexander vs. Morris; Rogers vs. Leggett, Nicholson vs. Dover, Sawyer vs. Lumber Co.
